

## Shield Christmas trees with *powerful protection* from wildlife.

Trico® Pro safeguards Christmas tree farms from wildlife with a user-friendly, dual-action spray. By effectively repelling deer, elk, moose and rabbits, it protects your investment without the time, effort and added expense of physical barriers.

Trico Pro uses natural ingredients to deter deer and other unwanted animals from browsing, antler rubbing and debarking damage. It targets the senses of taste and smell, producing long-lasting protection after a single application.

Unlike other wildlife repellents, Trico Pro produces a very subtle odor, which is non-irritating to humans but highly effective to the keen senses of animals. Its dual-action protection is delivered to trees in a convenient, liquid concentrate that is easy to use and gentle on equipment.

With Trico Pro on your side, you can focus on what matters most – the quality and value of your Christmas trees. Contact your local Helena representative or authorized dealer for more information on Trico Pro.
